Department of Telecommunications and Energy
One South Station
Boston, MA 02110

***Re: DTE 06-33, Investigation to Develop Long-Term Plan for Funding
E911***

Dear Secretary Cottrell:

I write on behalf of Comcast Phone of Massachusetts, Inc. ("Comcast Phone") in response to the April 28, 2006 Notice of Investigation and Public Hearing issued by the Department of Telecommunications and Energy in the above-captioned docket. Comcast Phone, a facilities-based provider of residential phone service, is currently monitoring DTE 06-4, *Investigation to Establish a Permanent E911 Surcharge*, and seeks the same status in this proceeding.

Comcast Phone seeks to monitor the proceedings and remain on the service list in this docket. At this time Comcast Phone does not intend to file comments, but reserves its right to do so later in the proceeding.

Please do not hesitate to contact me with any questions at 978-927-5700 ext. 4337.

Very truly yours,

/s/

Stacey L. Parker
Director Regulatory Affairs
